on hand; and any Stove manufactured will be furnished on short notice, as a smill costover Fac-tory prices. Our facilities for furnishing any piece needed to repair half worn-out Stovesare such that parties calling on us can have the stoves repaired at a small cost, and save the expense, for a time, of buying new ones.

The demand for this article has greatly increased the past two or three years, for the reason that they can be furnished at a much lower price than those usually obtained from the cities. Any carpenter can make one. The price we charge for lining them with zinc, together with the painting, affords a good, substantial article within the means of overy family.
